Let's Start!

Let's visit the doctor's office with Vanessa!

Learning Outcome

Describe routines and regular activities in a wider range of social and work contexts.

Ask your partner:

- What do you think about hypnosis?
- Would you ever try it? Why or why not?

Can Do Statements

- I can offer advice and solutions about healthy habits.
- I can talk about what people do or what people are doing.
- I can talk about what is necessary.

Let's Explore!

Vanessa is at the doctor's office. What advice does the doctor give her?

Instructions: Read the text aloud.

Vanessa: Hello. I'm here to see Dr. Coats.

Receptionist: Do you have an appointment?

Vanessa: Yes, it's at 2:20 p.m.

Receptionist: Do you have medical insurance?

Vanessa: Yes. I'll show you my card.

Receptionist: Thanks. Have a seat.

Receptionist: You can go in now.

Dr. Coats: Hi, Ms. Wright. How are you doing? What brings you in today?

Vanessa: I'm doing alright, just tired. I want to discuss my insomnia. I feel like it's getting out of hand.

Dr. Coats: That's not good. I advise you keep a sleep diary, so we can keep track of any changes. Have you noticed a change in your sleep schedule?

Vanessa: Not drastically. I ought to try something new. I wanted to try out hypnotherapy. What do you think?

Dr. Coats: Hmm ... it's an option. You could also take some medication to help you sleep.

Vanessa: I'd prefer not to.

Dr. Coats: Okay. I'm going to have to set you up with a hypnotherapist.

Vanessa: How will it work?

Dr. Coats: A hypnotherapist can tap into your subconscious to uncover the root cause of your inability to sleep. Then, the treatment can begin. You need to accept that it may not work though.

Let's Practice!

What could be the solution to Vanessa's insomnia? A hypnotherapist?

*"hypnotherapist" refers to someone who practices hypnotherapy.

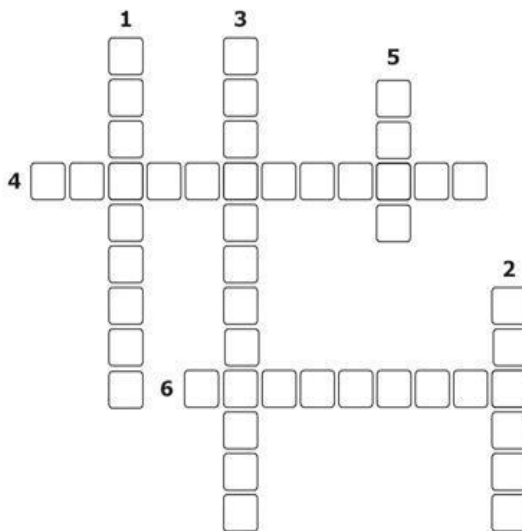

Instructions: Complete the crossword. Read the clue. Then, write your answer.

DOWN

1. Insomnia refers to the i_____y to sleep.
2. You might n_____e a drastic change in your sleep schedule.
3. I ought to try h_____y.
4. They will uncover the r_____t cause of your insomnia.

ACROSS

4. They will tap into your s_____s.
6. We ought to start this t_____t right away.

Let's Practice!

What does Vanessa think is necessary? What about the doctor?

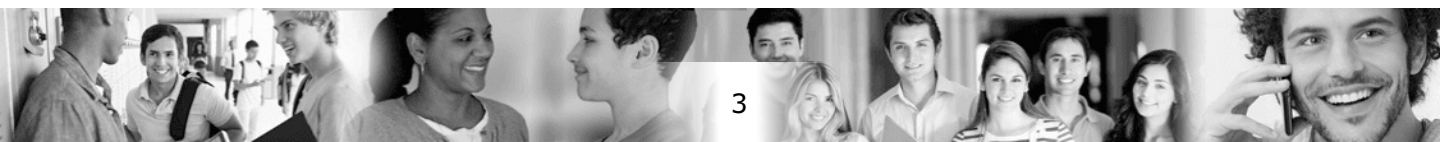

Instructions: Organize the mystery sentence. Write each word in the correct order.

1. you / card / . / I'll / my / show

2. You / accept / that / though / work / may / need / it / to / not / .

3. want / I / try / out / hypnotherapy / to / .

4. have / to / up / going / with / I'm / a / hypnotherapist / to / set / you / .

Extension Activity

Let's learn more about hypnotherapy.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Go on the Internet. Do some research about hypnotherapy.
- Do you have any questions about how it works? Find the answers to your questions.
- What are other problems that could be solved by hypnotherapy? Make a list.
- Using all the information you have found, write a short report about hypnotherapy.
- Proofread your report and share it with your class.

Self-Assessment

Yes **No**

I research hypnotherapy on the internet.

☐ ☐

I offer solutions in my report.

☐ ☐

Target Words

- to get out of hand** (verb): to not be able to be controlled any more
e.g. I feel like my insomnia is getting out of hand!
- to notice** (verb): to realize or see something
e.g. Have you noticed a change in your sleep schedule?
- hypnotherapy** (noun): the use of hypnosis to treat physical problems
e.g. I want to try out hypnotherapy.
- to tap into** (verb): to be able to understand something
e.g. A hypnotherapist can tap into your mind.
- subconscious** (noun): the part of your mind that has thoughts and feelings you do not know about
e.g. They can even tap into your subconscious.
- to uncover** (verb): to find out about something
e.g. The therapist will uncover the reason behind your issue.
- root** (noun): the main cause of a problem
e.g. What do you think is the root cause of your insomnia?
- inability** (noun): the fact of being unable to do something
e.g. I want to know the cause of my inability to sleep.
- treatment** (noun): something that is done to cure someone who is ill
e.g. The treatment will start right away.

Learning Points

Present Simple and Present Continuous

You use Present Simple to describe actions or situations that exist now and will go on indefinitely.

Example:

- **Doctor:** *Do you have medical insurance?*

Vanessa: *Yes I do. I always have it with me.*

You use the Present Continuous to talk about particular actions or situations that started but have not finished at the time of speaking.

Example:

- *I'm taking some medication.*

Offering Advice and Solutions

When you visit a doctor, you share an issue with your health or ask for advice. You use adverbs of manner like *slowly* or *suddenly* to describe how something is.

The doctor will offer advice and solutions on how to improve your health. They can use the modals *could*, *should* or *might* to give a solution.

They can use the modal *must* or expressions like *have got to ...* or *going to have to* to express what is necessary. They may also use adverbs of manner to describe how something should be done like *gradually*.

You can use the following to express what is necessary:

- You had better ...
- You have got to ...
- I'm going to have to ...
- You need to ...

Examples:

- *You've got to gradually increase the time you exercise.*
- *I'm going to have to ask you to write down everything you eat.*
- *You need to keep a sleep diary.*
