Let's Start!

You are getting sleepy ... you are getting very sleepy!

Learning Outcome

Identify and provide solutions to problems in a range of social contexts.

Ask your partner:

- Have you heard of the word hypnosis?
- What do you think it means?
- Find out the meaning and discuss your thoughts about it.

Can Do Statements

- I can offer advice and solutions about healthy habits.
- I can talk about what people do or what people are doing.
- I can talk about what is necessary.

Let's Explore!

Sally and Vanessa discuss Vanessa's **options***

* An "option" is a choice you can make in a particular situation.

Instructions: Read the text aloud.

- Vanessa:** My sleep-wake cycle just isn't syncing with my day!
- Sally:** What do you mean? I thought you were getting more sleep.
- Vanessa:** I was for awhile, but now it's just back to square one. I think I may have a solution to this problem.
- Sally:** What is it?
- Vanessa:** I'm going to have to try hypnosis.
- Sally:** Are you serious? Is that a viable option?
- Vanessa:** I think so. I'm going to have to try it out. I'm running out of options. I'm waking up tired every morning. It's like I never went to sleep.
- Sally:** Oh boy!
- Vanessa:** I have got to get rid of this insomnia.
- Sally:** Shouldn't you talk to your doctor first?
- Vanessa:** Of course. I'm going to see him this afternoon.
- Sally:** Good. You should always consult your doctor before you make any kind of decisions about your health.
- Vanessa:** Definitely. I hope he'll refer me to someone.
- Sally:** Isn't there a more natural approach? There ought to be. This doesn't sound safe.
- Vanessa:** My doctor advised meditation, guided imagery and aromatherapy. I've tried them all, nothing seems to do the trick.
- Sally:** You should try a natural remedy. You need to try acupuncture. Didn't Aunt Nelly try that out for her arthritis?
- Vanessa:** Mhm. I'll talk to my doctor.

Let's Practice!

Sally offers Vanessa some advice. Will it do the trick*?

*"to do the trick" is an expression that means to do exactly what is needed.

Instructions: Read the text. Write the words from the word list to correctly complete the sentences.

Learning Points

Simple Present vs. Present Continuous

There are verbs that hardly ever take the continuous. This is because they express states that are permanent and not subject to a frequent change.

Among these verbs we find verbs of the mind: *know, understand, hope, mean, think*.

Examples:

- *What do you mean?*
- *I think I may have a solution to this problem.*
- *I hope he'll refer me to someone.*

The *Present Continuous* gives the actions limited duration and makes them temporary.

Example:

- *I'm running out of options.*

Expressing What is Necessary

You use the modal *must* or expressions like *have got to ...* or *going to have to* to express what is necessary.

You can also use a superlative adjective when expressing what is necessary. Remember you always use *the* with the superlative.

You can use the following to express what is necessary:

- You had better ...
- You have got to ...
- I'm going to have to ...
- You need to ...

Examples:

- *I'm going to have to try meditation. It's the most recommended option.*
- *You'd better try acupuncture. It's the best remedy.*
